

# MEGA MACS 42 SE

## Product specification

- ✓ Compact, lightweight diagnostic tool
- ✓ Successor to the popular mega macs 42 model
- ✓ Comprehensive vehicle coverage
- ✓ Unrivalled functionality and portable performance
- ✓ Enhanced with PassThru® technology

### INTRODUCING THE NEXT STEP IN MOBILE DIAGNOSTIC SOLUTIONS

Developed in partnership with Gutmann Messtechnik – the world's most respected name in automotive diagnostic technology – the mega macs 42 SE builds on the success of the celebrated mega macs 42 model by introducing a host of powerful new features, including Bluetooth VCI and PassThru® technology.

Designed as a flexible all-rounder device for professional workshops, this new model makes identifying, diagnosing and resolving vehicle faults even quicker and more reliable than ever before.

### LIGHTWEIGHT BUT HARDWORKING

Weighing just 480g and featuring long-range wireless capabilities, the new mega macs 42 SE focuses on workshop flexibility by providing highly portable diagnostic capabilities wherever they are needed. Designed to include an innovative quick release battery and mains powered docking station to ensure continuous workflow, the mega macs 42 SE is also able to provide accurate ECU and system data for over 40 manufacturers and over 35,000 of the most common models found on British roads.

### DIAGNOSTICS HAVE NEVER BEEN SIMPLER

In keeping with the simplicity of the previous model, the mega macs 42 SE has been designed to be a user friendly device. Featuring just twelve buttons and intuitive software, even complex diagnostic tasks can be performed with minimal training.

### FUTURE READY

A key new feature of the mega macs 42 SE is the inclusion of PassThru® technology – a quick and easy way to upload the very latest ECU firmware, direct from the manufacturer. This, combined with regular technical updates from Hella Gutmann Data ensures that your device always has access to the very latest diagnostic information, critical when dealing with modern vehicle technology.

### TECHNICAL SUPPORT YOU CAN RELY ON

In keeping with our commitment to technical excellence, every product license includes access to a free telephone hotline offering high-level technical support from a team of experts in the UK, who are supported by over 40 Master Technicians in Germany.
