

MEGA MACS PC FULL VERSION

Product specification

- ✓ PC version of the popular mega macs 42 SE model
- ✓ Suitable for your Windows netbook, PC or tablet
- ✓ Comprehensive in-depth vehicle coverage
- ✓ Unrivalled functionality and portable performance
- ✓ Enhanced with PassThru® technology

INTRODUCING THE NEXT STEP IN MOBILE DIAGNOSTIC SOLUTIONS

Developed in partnership with Gutmann Messtechnik – the world's most respected name in automotive diagnostic technology – the new mega macs PC Full Version is a cost effective device, with the same capabilities as the successful mega macs 42 SE including Bluetooth VCI and PassThru® technology.

Designed as a flexible, user-friendly all-round diagnostic solution for professional workshops, the new mega macs PC Full Version makes identifying, diagnosing and resolving vehicle faults faster and more accurate than ever before.

FLEXIBLE AND POWERFUL

Featuring long-range wireless capabilities, the new mega macs PC Full Version provides total flexibility by providing highly portable diagnostic capabilities on your netbook or tablet PC wherever they are needed. It offers detailed ECU and system data for over 40 manufacturers and over 35,000 of the most common models found on UK roads.

USER-FRIENDLY DIAGNOSTICS

In keeping with the simplicity of the mega macs range, the mega macs PC Full Version has been designed to be a user-friendly, with intuitive, easy to use software, enabling even complex diagnostic tasks to be performed with minimal training.

FUTURE READY

A key new feature of the mega macs PC is the inclusion of PassThru® technology – which enables the very latest ECU firmware to be downloaded directly from the manufacturer. What's more, regular software updates mean you will always have access to the very latest diagnostic information - critical when dealing with modern vehicle technology.

TECHNICAL SUPPORT YOU CAN RELY ON
