

CSC-TOOL

Product specification

- ✓ Enables accurate calibration of camera-based driver assist systems
- ✓ Compatible with a wide range of vehicles
- ✓ A flexible, modular system that can be tailored to individual workshop requirements
- ✓ Full integration with mega macs diagnostic tools

A COMPREHENSIVE SOLUTION TO A NEW CHALLENGE

The CSC (Camera Sensor Calibration) Tool from HELLA GUTMANN SOLUTIONS is a comprehensive and flexible solution for the calibration of camera-based driver assist systems.

Adaptive lighting, automatic distance control, multi-collision braking, lane departure warning and other camera-based safety systems are becoming a common feature of many mid-size and compact cars.

Following even relatively simple procedures including wheel alignment/geometry checks and windscreen replacement, the sensors and cameras required by these systems have to be calibrated and adjusted with the utmost precision. Yet calibration tools have only been available from the vehicle manufacturers, until now.

FLEXIBLE, AFFORDABLE AND EASY TO USE

Ideal for all makes garages, glass replacement businesses and body shops, and compatible with a wide range of vehicle models and camera-based driver assist systems, the CSC-Tool from HELLA GUTMANN SOLUTIONS once again enables independent garages to expand their capability and operate more profitably.

It's a cost-effective, fully modular system that allows vehicle-specific calibration tables, as well as additional modules for different driver assist systems, to be added at any time, enabling the system to be tailored to meet your individual business needs.

Designed to be user-friendly, it provides accurate results with no need for a fully-equipped axle alignment station, levelled workshop floor or platform lift.

FULL INTEGRATION WITH MEGA MACS DIAGNOSTIC TOOLS

The CSC-Tool fully-integrates with mega macs diagnostic tools. Calibration results can be read on the diagnostic tool and saved in Car History, and are available to print out.

CSC-TOOL TECHNICAL INFORMATION

Dimensions (complete)	2400mm x 800mm x 2000mm
Weight	approx. 80 kg
VAG-Panel	1341mm x 962mm x 3mm
Cross Bar	2400mm x 72mm x 220mm
HD Easy Touch Head	600mm x 310mm x 485mm

COMPATIBLE WITH

- mega macs PC
- mega macs 42 SE
- mega macs 56
- mega macs 66
